I wish you a great New Year of travel!

Designing Travel for 2008

Before finalizing my 2008 travel program I am inviting Travel Pilgrims, like yourself, to give me some suggested destinations and dates that might be of interest to you in Saskatchewan or the world during 2008. I always recommend my friends to be proactive in planning their travel so that once people know you will be away they will plan events (e.g. family celebrations) around your schedule rather than simply having you respond to their last minute agendas. Furthermore, by booking cruises, for example, 6-9 months in advance you have a better chance in getting the staterooms and fares that you want. If money is not a major factor than you can afford to book at the last minute!

Some of the destinations I am expected to be involved with are:

1) International Eucharistic Congress in Quebec City, June 15-22, 2008 with a post-Congress travel program into Quebec, NL or Iceland. 2) South African Safari 3) Pyramids of Egypt etc.

Remember I do not do travel programs that can readily be booked through the Internet or "off the rack". I design and offer programs that require more detailed design and are enhanced by special enrichment features which can only be offered within a small group. In this way my experience and expertise can better be directed to fulfill the Ministry to Tourism's goal---to serve travelers today in the discovery of the Sacred in reflective travel.
